taste or smell**

**Shortness
of breath**

NOTE: Some people may be able to spread COVID-19 without showing any symptoms.

FLU

**Fever or
chills**

Cough

**Sore
throat**

**Body
aches**

As flu season approaches, be aware of the different symptoms you may experience with the common cold, flu, and COVID-19. This list is not exhaustive, and other symptoms may be present or overlapping.

If you have any of the symptoms above, please bring it up with your doctor during the appointment.

Getting an annual flu vaccine is an important preventative measure to help protect against influenza this season.
